RE: MHN LAP Reminder and Provider LAP Webinar

Scope: All MHN Providers

Dear Provider,

The Health Care Language Assistance Act, effective since 2009, requires all California managed care health plans to provide language assistance and culturally sensitive services to members who are limited-English proficient (LEP).

To comply with this mandate, MHN created the Language Assistance Program (LAP) to ensure that LEP members are able to obtain language assistance while accessing mental health care services. MHN provides members with language assistance through face-to-face, telephonic interpretation services, and written translation services as well as through our diverse network of practitioners. Interpretation services are arranged by MHN prior to referral to a practitioner to support MHN members' linguistic and cultural needs. MHN maintains ongoing administrative and financial responsibility for implementing and operating the language assistance program for members and does not delegate its obligations under language assistance regulations to its participating providers.

Should you discover that a member needs interpretation services after beginning treatment, please contact MHN immediately so that we can assist in obtaining the necessary resources. To access these services, please call the toll-free number located on the back of the member's identification card. If this number is unavailable, please call the MHN Language Assistance Services Line at (888) 426-0023.

LAP Overview

MHN's Language Assistance Program includes the following:

- Interpreter services for LEP MHN members are available 24 hours a day, seven days a week at all points of contact, by contacting MHN Language Assistance Services at (888) 426-0023. This assistance includes face-to-face, telephonic and video remote interpretation services, and written translation services including alternate format.
- MHN provides a notice of language assistance services with vital documents to all California members. MHN will provide translated documents in threshold languages (Spanish, Chinese, and Korean) and provide interpretation and translation services in many more languages, upon request. This notice is also available to contracted providers for distribution to members upon request.

Provider LAP Compliance Requirements

All MHN providers are required to support the LAP by complying with the following:

- **Interpreter Services** – Use qualified interpreters for LEP members. Interpreter services are provided by MHN at no cost to the provider or the member. You may contact the MHN Language Assistance Services Line or MHN Customer Service to arrange interpretation services.
- **Member Complaint/Grievance Forms** – Members wishing to file a grievance or complaint should call the number listed on the back of their identification card, or access <https://www.mhn.com/members/behavioral-health/appeals-grievances.html> to obtain complaint/grievance forms, also available in Spanish, Chinese, and Korean (links to printable format also provided).
- **Independent Medical Review Application** – Locate the DMHC’s Independent Medical Review (IMR) application and provide it to members upon request. This application is available in English, Spanish, Chinese, and Korean on the DMHC Web site at <http://www.dmhc.ca.gov/FileaComplaint.aspx>.
- **Documentation of language preference-** Document the member’s language preference and the refusal or use of interpreter services in the member’s medical record. MHN strongly discourages the use of adult family or friends as interpreters, except in emergency situations. If, after being informed of the availability of interpreter services, the member prefers to use an adult family or friend as an interpreter, the provider must document this in the member’s medical record. The use of a minor as an interpreter is only permitted in emergency situations.
- **Engage telephonic referral if face-to-face interpreter is late** – If a scheduled face-to-face interpreter fails to attend appointment within an acceptable timeframe, providers are encouraged to offer the patient the choice of using a telephonic interpreter. Providers can call MHN Customer Service and a customer service agent will conference in the telephone interpreter to expedite services. To access these services, please call the toll free number located on the back of the member’s identification card.
- **Notify MHN of Language capability changes** - Practitioners are contractually obligated to notify MHN of any change to their practice, including changes in language abilities, 30 days prior to the effective date of such a change, by attesting to these changes via the Provider Portal at www.mhn.com. MHN does not track bilingual changes among office staff, however practitioners must notify us when there has been an addition/departure of a bilingual clinician from a group practice.

Cultural Competency Training

MHN recommends that all providers participate in a cultural competency training course as part of their continuing education. The United States Department of Health and Human Services' Office of Minority Health (OMH) offers a computer-based training (CBT) program on cultural competency for health care providers. This program was developed to furnish providers with competencies enabling them to better treat California's increasingly diverse population. For more information, refer to the OMH Think Cultural Health Web site at www.ThinkCulturalHealth.hhs.gov.

MHN's LAP Provider Webinar:

MHN will be hosting an informational provider webinar that will provide details on our Language Assistance Program and the different services MHN has available. After the webinar, you will be able to successfully access our language assistance services, including but not limited to, how to request telephonic interpreter services during an appointment.

When: August 10, 2023 @ 12:00pm - 1:00pm PT
